

# KHANO PHIDANE

SOFTWARE DEVELOPER

## Profile

As someone who gravitated towards maths and problem-solving, my curiosity extended to the inner workings of computers. Having completed my Computer Science degree, I enjoy decomposing problems and composing solutions. I look forward to joining a software development team and continuing to grow.

In my spare time I enjoy hiking, jogging, camping and enjoying nature, I am also participate in activity to help develop young people spiritually, academically, entrepreneurial and give them life skills with organisations such as the Seventh Day Adventist Church, Africa Beyond Academy and Bono Foundation
